

## Organizational Systems for **Fire/Rescue**

When your job is saving property and lives, seconds matter. Quick access to your equipment and tools is a must. Shark-Co custom foam solutions deliver the order and accountability you desire.

### Everything in its Place

A place for everything and everything in its place when you need it. It's the technique you teach. It's the workplace you demand. It's the visual order we deliver. Missing equipment and tools cost time and money, and can also cost jobs and even lives.

Shark-Co custom foam solutions help work get done efficiently, effectively and safely. No tool is left behind and no equipment is missing in action.

### Hammerhead Tough

Shark-Co polyethylene composite foam is made in the USA. It's durable, lightweight and tough. Not only does it deliver a strong bite and grip, but it's tear and stain resistant, fire and water resistant, mildew and odor resistant, and resilient to chemicals and lubricants found in harsh work environments. It's made for it. It's tested for it. Simply, wipe it clean and keep working.

## The Shark-Co Way

Some may claim that we're OCD. They're absolutely right. And we're proud of it.

When missing equipment or tools could put someone's life at risk or career on the line, we're deadly serious about helping our customers keep everything in its place and everything accounted for.

We can't imagine it any other way. The Shark-Co way is about being well-organized and well-prepared. It's about more than durability and workability. It's about raising the level of productivity and accountability. It's in our DNA.

## 100% Satisfaction Guarantee

We stand behind what we make. If something's not working or fitting, we want to know. If you're not 100% satisfied, we'll make it right. You can return it for a replacement or refund within 30 days of delivery.

## Woman-Owned

We're proud to be one of the many women-owned businesses in the United States. By 2018, 33% of new jobs are projected to be generated by women-owned businesses. That's pretty neat and more motivation for us to do our part by keeping your equipment and supplies neatly in their place.

## Made in the USA

No outsourcing. No foreign objects. No offshore nothing. We're 100% USA made. Our polyethylene composite foam is manufactured in the Midwest and our custom foam solutions are produced in our Lebanon, Indiana facility.
